

DIVISION OF PROPERTY TAXATION

Under the general laws of Colorado, the Property Tax Administrator (Administrator) heads the Division of Property Taxation. The Administrator is appointed by the State Board of Equalization to serve a five-year term, and until a successor is appointed and qualified.

A primary responsibility of the Division is to administer the implementation of property tax law throughout the 64 counties so that valuations are fair, uniform, and defensible, thereby ensuring that each property class contributes only its fair share of the total property tax revenue. In other words, the Division's goal is equalization of valuation and proper distribution of property taxes throughout the state.

The Division is comprised of four sections: Administrative Resources, Appraisal Standards, Exempt Properties, and State Assessed Properties.

Administrative Resources

Administrative Resources prepares and publishes administrative manuals, procedures and instructions. It conducts schools and seminars regarding the administrative functions of the assessors' offices. It conducts field studies and provides statewide assistance in tax increment financing, manufactured housing, title conveyance, mapping, abstracting valuations, certification of values to taxing entities, and workforce analysis studies. The section also investigates taxpayer or taxing entity complaints. It is responsible for various studies and reports such as the residential assessment rate study and the Property Tax Administrator's Annual Report to the Governor and the General Assembly. It also coordinates with agencies having an interest in property taxation. In addition, the field staff works closely with assessors in all areas of property taxation.

Appraisal Standards

Appraisal Standards prepares and publishes appraisal manuals, procedures and instructions. It holds schools and seminars regarding all areas of appraisal. It conducts field studies and provides statewide assistance in agricultural land classification, natural resources and personal property valuation, as well as assistance in the valuation of residential, commercial and industrial properties. The section assists in

reappraisal efforts, reviews internal appraisal forms used by assessors, and investigates and responds to taxpayer complaints.

Exempt Properties

The Exemptions Section is responsible for determining qualification for exemption from property taxation for properties that are owned and used for religious, charitable and private school purposes. Exempt property owners are required to file annual reports with the Division to continue exemption. The section provides assistance to counties and taxpayers with inquiries about exempt properties, conducts hearings on denied exemption applications and revocations of exemption, and defends appeals of such denials and revocations.

State Assessed Properties

The State Assessed Section values all public utilities, rail transportation companies, and airlines doing business in Colorado. The company valuations are then apportioned to the counties for collection of local property tax. The section conducts research projects in connection with state assessed companies; assists counties and taxpayers with inquiries on the assessment of public utilities, rail transportation companies, and airlines; hears protests of the assigned values and defends appeals of such valuations.

2008 VALUE INFORMATION

Statewide Assessed Values for 2008

The 2008 tax year was an "intervening," or non-reappraisal year, meaning the actual values of most properties were the same as those established for the 2007 tax year. The values generally reflect market values as of June 30, 2006, although certain classes and sub-classes of property are valued every year.

The property valued every year includes all property classified as state assessed; leasehold interests classified as oil and gas, natural resource, and producing mines; and all subclasses of personal property.

For 2008, Colorado assessed values increased by \$2.4 billion, or 2.8 percent from the prior year. Table 2 displays the percentage changes in value of each property class for 2008.
