

# Energy Outreach Colorado

Helping all Coloradans afford home energy.  
[www.EnergyOutreach.org](http://www.EnergyOutreach.org)

**APPLICATIONS DUE  
AUGUST 14, 2009!**

## **Energy Outreach Colorado is now accepting applications for Energy Solutions Grants.**

Energy Solutions Grants provide funds for energy efficiency upgrades that promote energy bill savings. The grants are available to low-income housing providers and organizations that serve low-income homeowners.

Typical grant candidates include: Organizations or projects that build new single family or multi-family dwellings; Organizations or projects that serve single family households based on a request, referral, or crisis intervention, and; Organizations, typically multi-family housing providers such as Housing Authorities or nonprofit housing providers.

This year, Energy Solutions Grants have additional requirements of Grant recipient organizations:

- **All Grant** recipients are **required** to develop a client **energy efficiency education plan**. Education funds can also be used for Maintenance or Facility Manager training in place of client education.
- Grant recipients are required to provide a **5% match to the TOTAL GRANT REQUEST**. Eligible matches include but are not limited to: education outreach funded by the recipient; volunteer contributions; utility rebate and incentive programs; matching grants; and more.
- **Multi-family housing providers** are required to participate in a **new application process**. EOC has created an energy audit assistance program where **energy auditors will be assigned** to Housing Provider Applicants to identify EEMs **and assist with the Energy Solutions Grant application**.

The 2009-2010 Energy Solution Grant Application Process is significantly different than in the past. Return applicants will notice a number of additional requirements to receive Energy Outreach Colorado funding. **Please read all of the attached funding criteria BEFORE applying for a grant.**

**Go to: [www.energyoutreach.org](http://www.energyoutreach.org)  
and click on Energy Grants to start your application!**

**Want help with your application? Go to the next page!**

Energy Outreach Colorado will provide a conference call orientation with guidance and tips on how to complete the Energy Solutions Grant application form.

The conference call is organized by application categories which are described below. Please join the conference call for your category only.

1. **New Construction:** Organizations or projects that build new single family or multi-family dwellings.
2. **Rehabilitation: On-Demand:** Organizations or projects that serve single family households based on a request, referral, or crisis intervention.
3. **Rehabilitation: Housing Provider:** Organizations, typically multi-family housing providers such as Housing Authorities or nonprofit housing providers.
